OK, I will send around the addresses of the facilities at least a few days before the tour.

Thanks

I'll ask Nathan to move things around on Bobs schedule.

OK, thanks, I will plan on Bob Kavlock going. If Pat B. doesn't go, then we will have a space for you, Kacee. I am still waiting to hear back one way or the other. I will keep you posted.

Tom can't go, and he would like Bob to go in his place. He said if there's enough room, I should go, too. Though it sounds like there's probably not enough room.

Yes, at least. I will keep you posted. Now, Pat B. wants to go if we change the date, which we can't do.

Just hold tight until we figure out who, if anyone, from CDC can go.

Okay. Should we just put Bob as an alternate if Tom does not go?

Still confirming Tom's participation. Should know tomorrow.

CDC has asked that Tom Breyse attend. So, unless I can get OLEM to reduce their numbers, the trip is full. But there will be another to [] later in the month of May.

I can keep you posted on that and if someone drops out of the [REDACTED] trip, I will let you know.

Bob is interested in attending, but wanted to make sure he wasn't bumping someone who needed to be there. Can you let me know? I need to move one meeting if he does go but should not be an issue.

Thanks!

Maureen

Hi Jackie -- Please hold a spot for Tom. He wants to attend if he can. We are double checking a few things related to his schedule, but we've blocked the afternoon for this with the expectation that he can do it. Will let you know once we've confirmed.

I will talk with Tom. He will likely be interested, but I need to talk with him about some other items on his schedule that day.

Bob would be interested but seems like space is tight. I would need to move one meeting so let me know if he is an option.

Thanks

We've scheduled a tour on May 12, from 1 – 3:30, of the

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] both located near

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] processes whole tires at its main facility into 4" pieces, then sends them to the Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] (about 20 minutes away) where the pieces are reduced into rubber mulch. The tailings from the mulch

processing are used to make the various sizes of tire crumb, including crumb for turf infill.

We can bring 10 people with us to tour these facilities. So far, OLEM is bringing 5 people and CPSC will send 2 scientists. I will also attend, so we have 2 available slots if anyone else from ORD wants to go.

You are welcome to discuss with Fred or me to decide if anyone else from ORD will go. Please let me know if you have any questions. Thanks.

Jackie
